Improve our understanding of the nature, drivers, mechanisms and consequences of online risks and harms for police and their families.

Create technical and non-technical solutions to assess, prevent and protect from online risks and support recovery for police officers and their families.

Increase police and public understanding and behavioural changes through awareness campaigns and engagement activities.

Year 1/ongoing activities

Years 2+3/upcoming activities

KNOWLEDGE

PRODUCTS

IMPACTS

Understanding the landscape of online harms

Organisational + managerial solutions

Technological solutions

Training + awareness raising

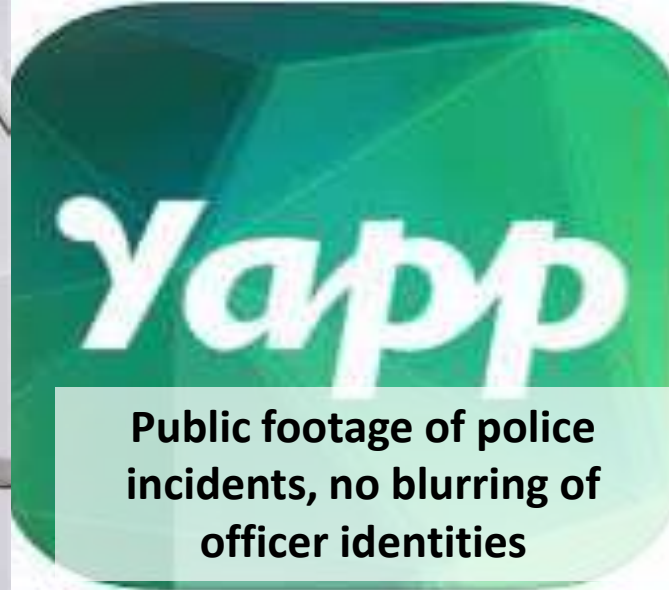

Safeguard the wellbeing of officers
Better protect families/children
Improve public understanding
Changes to reporting and policies

public-facing police functions
specialist police functions + dependents

(Very) First observations

Dating profile details are public, officers are contactable

Public footage of police incidents, no blurring of officer identities

Sharing police incidents, criminal favourite as auto-deletes

Social Media Sites

Officers easily identifiable and contactable

Anti-police accounts, users anonymous, officers identifiable

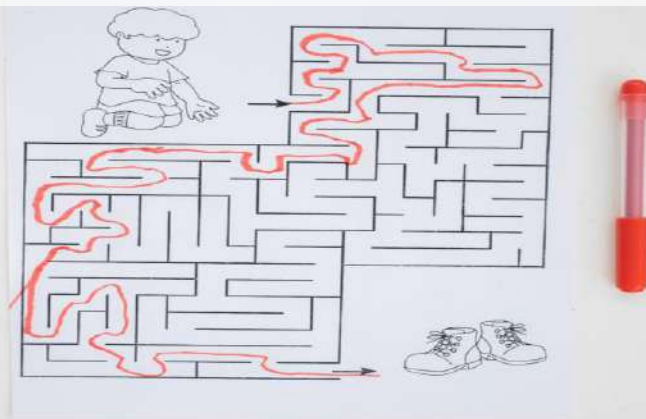

Dedicated channels to expose and film officers

Development of solutions to improve situational awareness and harms reporting

Review of existing procedures for support in police forces

Development of training and public awareness

Promoting visibility of the project

Privacy walks, interviews and focus groups with young people
