REPHRAIN MAP

AIM

to establish a baseline of current state-of-the-art.

Features

- a living resource (updated regularly)
- inspired by the Mitre ATT&CK framework 11 for technical cyber attacks
- (key distinction) the REPHRAIN Map is a socio-technical
- Allow ability to drill down into advances that mitigate against particular harms.
- a barometer to evaluate the Centre's progress with regards to the baseline

Our Approach

Phase 1: Scoping sessions

- Various scoping sessions with academia, industry, partners, and organisations
- Identified five key components

Phase 2: Design

- Drafted visual designs
- Harm centric instead of project centric

Phase 3: Populating the MAP

Data Collection

- Online forms
- Workshops
- One-on-One meetings
- Online searches
- Emails

Data Curation

Update Map
